

**X-106AC MiniOven - Error messages:**

<b>I.p.</b>	<b>Error Code</b>	<b>Description:</b>
1	Er.01	eeeprom error
2	Er.02	ADC converter error
3	Er.11	TC-1 is open. Check the TC and/or connectors to the controller
4	Er.12	Allowable controlled temperature range for TC-1 was exceeded
5	Er.13	TC-2 is open. Check the TC and/or connectors to the controller
6	Er.14	Allowable controlled temperature range for TC-2 was exceeded
7	Er.15	Reference temperature sensor connection is open
8	Er.16	Allowable controlled temperature range temperature sensor was exceeded
9	Er.20	When working in the mode <b>bd_t</b> : external thermocouple "K" TCext is not connected (connector on the front front panel)-or the TCext is open.
10	Er.21	When working in the mode <b>bd_t</b> : the temperature on "K" TCext exceeds the permissible value.
11	Er.22	When working in the mode <b>bd_t</b> :
	case a)	The difference between the thermocouple T1 and the external thermocouple "K" TCext is greater than 330 °C
	case b)	The difference between the thermocouple T1 and the external thermocouple "K" Tcext is greater than 120 °C and the temperature of "K" TCext drops.
