

### **Bokar International**

- Produces innovative types of SMT (Surface Mount Technology), Rework, Assembly equipment and tools
- Has developed the most powerful and versatile convection batch ovens in the world ([www.BestBatchOven.com](http://www.BestBatchOven.com))
- Offers complete and competitive solutions for ESD-safe production
- Has opened a European warehouse which can ship at lower cost with no customs fees to European Union countries

We have more than 40 years experience and participation in development of SMT equipment (our engineers hold at least 30 patents in this field). We pioneered the development of the first affordable BGA rework systems and other SMT mounting equipment (patents: US 5560531, US 6761304 B2, US 7,851,255 B2, Japan P2002-118358A).

The engineering team of Bokar International improves and modifies machines from the X-KAR brand constantly when needed for clients such as Intel, Motorola, Varian Medical, US Navy and others.

Every year we have new models and better equipment for our worldwide distributors and customers.

**When  
Performance  
Matters**

Nominated for the  
**productronica**  
innovation award 2019
